

Sharing Your Story, Celebrating Your Journey

**Be part of an exciting
storytelling project.**

Carers WA is searching for 12 First Nation carers to participate in a special storytelling project that honours and amplifies the voices of Aboriginal and Torres Strait Islander carers. This project is designed to recognise your unique contributions, challenges, and cultural strengths in your caring role, while creating a platform to share your experiences with the wider community.

These stories will then be collated into a book for Carers WA.

How to get involved.

To register your interest or for further questions, please contact:
