CARERS WA STRATEGIC PLAN

JANUARY 2020 – DECEMBER 2021

Carers WA has been long established as the recognised peak body providing a voice for the 320,000 carers living in Western Australia. Following the highly successful achievements of the previous 2018 - 2019 strategy the organisation is now established as the main provider of carer services funded by the state and federal governments. The new federal support system, branded as the Integrated Carer Support Service (ICSS), appointed Carers WA as the Regional Delivery Partner (RDP) for the whole of Western Australia. This success places Carers WA in the unique position of being the sole provider of government funded carer dedicated services. This will ensure that carers in WA will receive the maximum government funded support available through co-ordination of both state and federal programs.
